Also discussed with Mr. Woodruff a response to Senator Karl Mundt relating to his question concerning public statements by him on "Soviet ground rockets" discussed by the Director in his appearance before Senate Armed Services CIA Subcommittee. Mr. Woodruff advised that DOD was preparing a paper for the Committee's use relating to the Soviet 140 millimeter rocket mortar now in use by the North Vietnamese and that the paper was expected during the day.

In response to his request for comparative information on the SR71 and A12, reviewed with Mr. Woodruff certain of the information contained in the status report dated 15 February. Although the information provided confirmed and added to other information already provided Mr. Woodruff, it did not provide the detail necessary to respond to Senator Russell's current question.
